# POWERbot™

Powerfully cleans the most hard-to-reach areas

**Powerful Suction. Slim Design.**  
Designed with a slimmer body without compromising its powerful suction, it can easily get into areas that are difficult to reach using normal vacuum cleaners, like underneath your furniture and beds, to ensure that your house is cleaned thoroughly.

**FullView Sensor™ 2.0**  
High-performance FullView Sensor™ 2.0 precisely scans and cleans every corner, avoiding very narrow or small obstacles across a wide area including areas that it can get stuck in.

**Edge Cleaning**  
Edge Clean Master comes with bristle brush that is placed very closely to the front of the cleaner so that it can sweep up dust effectively on the edge. In addition, the Auto Shutter automatically activates and drops down to create a barrier that helps the vacuum cleaner collect more dust close to the edges.

**Wi-Fi Control**  
Wi-Fi Control lets you remotely control the machine using its integrated Wi-Fi function and Samsung Smart Home App<sup>5</sup> on your smartphone. With a simple touch you can quickly start or stop it, schedule cleaning times anywhere, anytime.  
<sup>5</sup> Available on iPhones and Android devices. A Wi-Fi connection is required.
